POLITICS AND LOVE. Cousin of Cleveland's Afflicted with

"Cacoethes Scribendi." Copyright, 1887, by the California Associated Press. Washington, October 30th.-[Special.]-The book recently published in Detroit entitled, "Sew-Saw, or Civil Service in Government Departments," was written by Miss Cynthia Cleveland, cousin of the President and clerk in the Sixth Auditor's office, at Washington. The principle characters of the novel are but thinly discussed. It seems that the rillion of the characters of the novel are but thinly disguised. It seems that the villain of the plot is really Governor Swineford, of Alaska, while the other characters also have their living representatives among the public men of this city, and of Michigan and Dakota, where the scene is laid. The work is anti-biographical in its nature, and describes how the heroine—who is at the same time its author—became possessed in the last report no bodies had been found. The Captain of the steamer Lawrence estimates the number of people on the ill-fated vessel at about fifty persons.

ANOTHER POSSIBLE WRECK.

which he now holds.

The book says that charges were made against the villain of the plot—to the effect nat, while Commission leans Exposition his accounts were in a muddled condition. Miss Cleveland, beieving that this was entirely due to his unisinesslike management of his affairs. and not to any intentional wrong-doing on his part, felt justified in urging his confirmation, notwithstanding these charges. As the result of her efforts, Swineford was made Governor of Alaska. Then he mar-ried some other woman, and sent a letter to Miss Cleveland thanking her for her efforts in his behalf, and offering to secure for her testimonials, etc. To this businesslike letter she replied in a heart-rending epistle, which is given almost verbatim in

However, all doubts were set at rest this afternoon when a tug picked up a pilothouse with the name "Vernon" on it, and five life-preservers, off Two Rivers. Owing

to this fact, probably not a soul of the twenty-five or thirty people aboard were saved. THE CAUSE OF THE TERRIBLE DISASTER Will probably remain a mystery forever It is quite believed here that not a single soul has survived, as it would be impossible for any person to live in such a sea and exposed to the intense cold that prevailed on the night of the wreck. Many relatives of those on board came here on the propeller Lawrence this morning to obtain all particulars possible concerning the lost. Record-Union's Special Cablegram—Copyright by the New York Tribune.] Dublin, October 30th.—To-day William O'Brien, on the eve of his probable imprisonment, has again succeeded in giving the Government a "sell" and holding a great meeting in spite of them. The Gov-ernment suspected that he had some such ntention, and for the past four days had detectives posted at the Imperial Hotel down in the County Cork, where they ex-pected he would hold his meetings. They had massed a regular expeditionary force, including artillery, at each strategical point. A WOMAN IN THE CASE. Another theory-advanced by an English gentleman who class as to have had long experience in crimin al matters—is, that there is a woman in the case. He does not believe that Dimmig a jurdered Benhayon, nor that he was prese at at the time the latter died, but he is confi dent that he had a hand in the affair from a distance. The reasons which he gives for this belief are quite ingenious and plausib, le. Among other things he says:

"You must have noticed that no end of testimony is forthcoming concern ing Dim-mig. His occupation, room rentin 3, poison getting, and whereabouts and whatabouts on Saturday evening have all bean told. So it is with Benhayon, except so far as his connection with Dimmig is concern ed, up to 5:15 on Saturday afternoon. Then comes a blank until his body is found on Sun-day morning. Out from the blank, however, stand two salient facts: first, that he was seen, apparently intoxicated, at 10 r. M. in company with a man and woman, who were urging him to go somewhere with them; and second, that he was again seen between 10:30 and 11 P. M. in company with a man who was trying to take him

"The people who saw him, as with the people who saw Dimmig, promptly notified the police of the fact, and so also was it with the man who was in company with Dimmig, but no sign can be found of and no word is forthcoming from the woman From there he drove as if to Mitchells- and the man, or men, who could tell us the woman was a common woman, she would be in no way harmed by making a statement of her association with B hayon, while if the man who was with the of that fact. The natural sequence seems to be that these hidden witnesses have seen and heard more than they dare tell.'

The man was of medium size and looked as if he was intoxicated or just recovering from a debauch. He remarked that he had no friends. I saw Dimmig last night in this Court-room, but I don't think he was the man who applied for the cyanide of potassium. I think he was of light complexion and wore a Derby hat. It is my impression that he had a light mustache.

It must be presumed that the Courts of the case of the Chicago condemned murderers, popularly called "The Anarchists." The jurors who tried them had all the any means all circumstantial. The Suthe exceptions taken by the condemned, reviewed the law and the facts, found no errors or abuses, and affirmed the judgments. The Supreme Court of the United States, it is not likely, will order the case up to it, as the points made to induce it to do so were argued before the Supreme Court of the State and that the law was interpreted correctly is the judgment of the best legal minds. Indeed, the counsel for the condemned on Saturday admitted that his Anarchist clients had, at the time of the Haymarket murder, been supplying themselves with dynamite bombs upon the delusive theory that if they were so armed, and a large body of working men could be equipped likewise, the danger of a conflict between the authorities and the discontented would be averted, the knowlege of the arming serving to intimidate the police and the military. Captain Black hastens to say, however, that this was unquestionably a mistaken view taken by his clients.

The day of execution drawing near, we are now treated to the strange spectacle of European Communists, Socialists and Anarchists impertinently interfering, trying the case anew according to their own peculiar ideas, and sending threatening letters to this country to induce timidity of action on the part of the authorities. One of these letters has been received by the President of the United States from the Council General of the Social Democratic Federation in Holland, duly certified by the Secretary. This letter reviews what case there is at least uniformity of opinthe writers assume to be the facts; finds that the Chicago criminals have been unjustly condemned, and notifies the Presi- mystery respectively, "Darkness," "No dent that if they are hanged, it, the Coun- Daylight Yet," "All in the Dark," "Still have thrown the bomb at the Haymarket cil, will hold the President "personally rein the Dark." sponsible for the murder." This is noth ing more nor less than a threat to assassinate President Cleveland.

We have no idea how important a body this "Council General" is-it is enough to know that it is meddling, impertinent and criminal in threatening the Chief Executive of the Republic. Whatever else it may be, it is of foreign growth and habitation, and exposes its gross ignorance when it speaks of the "ruling class" as a party to the "murder" if the Anarchists are exeevery citizen here is a sovereign by recogrule here, and that we have not, as in Europe, a ruled and a ruling class. More amazing than this threatening letter of the stupid Dutch Anarchists is the action of the "Extreme Left" of the French Chamber. These men, who claim to be sufficiently intelligent to legislate for France, met unofficially on Saturday, took the statements of American Anarchists for gospel truth, and passed a resolution protesting against the execution of the Chicago assassins. In this remarkable resolution these hot-blooded Reds, who stand ready to-day to throw down the pillars of the French Republic at the first favorable opportunity, speak of the unwisdom of executing for "political of-Here, indeed, is amazing ignorance. These French malcontents need to nine and Holbrook, Merrill & Stetson's learn that the men who are about to be hanged in Chicago have not been tried for and will not be executed for political offenses. They have been tried and confenses. They have been tried and condemned under the ordinary laws against murder, and precisely as ordinary murboth clubs changed batteries, the S. P. O.'s derers are tried. It is humiliating to the Drummond as catcher. Gormley "fanned" common intelligence of men that the members of a section of a legislative body of a great European nation should expose themselves as having so little knowledge of the American Republic as to state that we try men and execute them for "political offenses." Treason alone could be placed in that category, but treason with of 9 to 6. Fourteen base hits were secured us consists only in levying war against the Government, and in adhering to and giving aid and comfort to its enemies.

Evidently the friends of the Chicago condemned murderers are driven to a corner and begin to see how desperate are the prisoners' cases. They now produce the mother of one of the escaped murderers, who dramatically recites details to show that her son threw the bomb. But even if this is true, it outs but a small figure in the tragedy, since the distinction between accomplice and principal is now practically

The truth is the sympathy expressed by the holders of these meetings is not sympathy with men they believe to be innocent, but sympathy with the crime of which they have been convicted. It is one set of criminals sympathizing with a bolder set whose daring has put them in the clutches of the law, and the claim of innocence is only put forward to draw aid and comfort from tender-hearted and unthinking people.

Anarchist Plots Talked Of - Jay Gon'd and the President Threatened

SPECIAL DISPATCHES TO THE RECORD-UNION

CHICAGO, October 30th.—It is believed the police have discovered a plot to blow up the jail where the Anarchists are confined. Little can be learned regarding the affair, but the reticence of the authorities regarding the matter is believed to indicate more in it than they are disposed to confess. Last Wednesday morning a strange man came to the jail, and his movements were so suspicious that Jailer Folz sent out Deputy Sheriff Webb, who has charge of the Deputy Webb: Stout built, five feet eight or nine inches tall, dressed in dark clothes, chinchilla overcoat and stiff hat. He has a heavy dark mustache and light Burnside whiskers. He calls himself Joe Miller, and speaks with an American accent. The man had not been to the jail before, but he walked into the cage and talked familiarly He began to "size up" the interior of the jail, and before he left he walked through the jail and seemed to examine with more than casual interest the passages leading to

SUSPICIOUS ACTION. When he left, Deputy Webb followed him. The man was lost sight of by the When he left, Deputy Webb followed him. The man was lost sight of by the officer, but the next evening he was seen loitering about the jail, and a boy about 12 years old was with the suspect who was years old was with the suspect, who was boy and searched him. He found in his pocket a paper containing a minute description of parts of the jail.

THE JAIL DESCRIBED. By accident a part of this description fell into the hands of some reporter. It reads : "The north end of the jail contains fourteen windows, twelve panes each. They are twelve feet from the ground and barred with round iron bars." The boy was taken to the Chicago police station, and promised to find the man who gave the paper to him. The man himself made his escape, whether through his own adroitness or the carelessness of those who followed him is not known. The police are pretty nearly as silent as oysters about the occurrence, and nothing is known even of what became of

#### THE HAYMARKET PLOT.

naubelt's Mother on the Ground With Important Evidence. CHICAGO, October 30th .- Mrs. Schnaubelt, massacre, arrived at Chicago from Germany yesterday and a rumor is current that she had been sent to this city to reveal the entire bomb-throwing conspiracy with a view to the release of at least four of the condemned Anarchists. She visited the jail and had an interview with Schwab, son-in-law. It is said she brings with her certain evidence that will show beyond a doubt that the plot to throw bombs was not known by Fielden, Parsons, Schwab or Fisher. Other names may be included, but these were all that were mentioned. It is further claimed that the plot was arranged in New York and that but five men in Chicago knew of its real purpose, and those five men were Spies, Engel, Lingg, Zegler and Schnaubelt.

AFTER JAY GOULD The Railway Millionaire Frightened Into

a Trip Abroad. New York, October 30th .- An evening act upon it boldly.

MYSTERIOUS MISSIVES. At first Gould was approached in a neutral rather than a threatening manner. The reliance of the Anarchist brotherhood upon his great power and upon his exercise of it in their behalf were set forth in mysterious communications, which he received, sometimes by mail, and sometimes by the hands of furtive messengers in the street. As time passed on and the case of the condemned seven became more desperate, the anonymous messages became sharper in tone and of a distinctively threatening character. After this change Porous Plasters are of the greatest value ing delivered to Mr. Gould in person.

GOULD GETS SCARED. Latterly the warnings have been of so ecided a character and so explicit in their terms that Gould, who is not naturally a nan of timid disposition, became thoroughly frightened and began somewhat preparations for his long contemplated pleasure trip to Europe. His de-parture to-day is believed to be chiefly due to a willingness to pass the day of the Anarchists' execution somewhere remote from the reach of any possibility of their insane

#### CLEVELAND THREATENED.

An Outrageous Letter Received from an Anarchist in Holland. WASHINGTON, October 30th.-Following a copy of a letter received on Friday by

President Cleveland:

THE HAGUE, Holland, October 15th.

To the President of the United States: The Council General of the Social Democratic Federation in Holand, feeling indignant at the infamous judgment of the Illinois Supreme Court in the case of the Chicago Anarchists, holds that the throwing of a bomb in the meeting held May 4, 1886, was provoked by the outrageous assault of the police upon the people's right of free speech. Furthermore, as the thrower of the bomb is not known, the charging of the seven Anarchists with the guilt of this act is essentially arbitrary and is an outgrowth of class hatred. Therefore the Social Democratic Federation of Holland, in the name of humanity, liberty and justice, protests against the sentence of death passed on the Chicago Anarchists, and despising the ruling class for making themselves a party to this murder, shall hold the President of the United States personally responsible if their lives are taken. By order of the Council of the United States personally responsible if their lives are taken. By order of the Council-

THE WRIT OF ERROR.

Forecast of the Opinion of the United States Supreme Court. opyright, 1887, by the California Associated Press. ! WASHINGTON, October 30th .- [Special.]-It is possible, but not probable, that a decision in the Chicago Anarchists' case will be rendered by the Supreme Court to-morrow.

That the decision of the Court will be adverse to the application of a writ of error is generally believed. The Court, however, will take sufficient time to consider the case thoroughly, and as the date for the execution is fixed for November 11th there is no occasion for haste in rendering the

AN ADDLED PROFESSOR.

Felix Adler Despises the Anarchists, But Would Quarantine Them. NEW YORK, October 30th .- Professor F lix Adler addressed the Society of Ethical Culture at Chickering Hall this morning on the case of the condemned Chicago Anarchists. He said he had been asked to address arm yesterday, and every ball he threw to O'Day was altogether too high, otherwise he played to perfection. raged by the method by which they sought to obtain their ends," said the Professor.

"The Anarchists are the worst enemies of seciety, and should be suppressed. Yet I rise to enter a plea in their behalf, because I am in favor of absolute purity in judicial processes and impartiality in the face of ment thereon, together with costs of advertising raged by the method by which they sought as heroes, which they are not. that, in his opinion, the prisoners should have had separate trials, and that Lingg,

service to-day to a large congregation, taking for his subject: "Reasons why the Anarchists should not hang." In the course of his remarks he said he thought they were guilty men, but belonged to a differ-ent order from that of burglars, assassins and highwaymen. Then, again, these men are in part the product of hard social conditions, misery and rebellion caused by centuries of European tyranny. He said: "It is in their blood, just as much as the selfcontrol and sobriety of the Puritans is in

Frenchmen Take a Hand. Paris, October 30th.-The American Anarchists have asked a number of mem bers of the Chamber of Deputies to peti-tion the Governor of Illinois in favor of the Chicago Anarchists. The Extreme Left men on the outside. This is a description of the man of the man of functional description lowing to the Governor: "In the name of of the man as furnished to the police by humanity, and in the name of the connection between the two great republics, the Paris Deputies, advocating the abolition of political deaths, ask for the lives of the seven men condemned to death at Chicago.

The Prison Directers met at San Quentin Saturday. President of the Board John with Fischer, Lingg and one or two others. Boggs was present, and offered no objection to the seating of his successor, J. J. Scrivner. Director Sonntag being the senior member of the Commission was elected Chairman. Warden Shirley filed his official bond,

which is in the sum of \$25,000 and \$60,000

It was rumored some days since that John Boggs was going to contest the right of our earlier products. It will be entirely ter walked away toward North Clark street and the man began to pick his way through an alley. Officer Lowenstein caught the was promised that the election of Warden Shirley would be confirmed. This was done, and the Colusa Senator retired covered with smiles, apparently glad of getting rid of the thankless position.

During the afternoon session of the

Board the annual report for the past fiscal year was prepared to be sent to the Governor. In referring to the affairs at the San Quentin prison the report says that the expense of running the present jute mill is from \$65,000 to \$70,000 a year. It consumes 5,000 bales of 400 pounds each annually. With the additional mill the expense wil be increased to about \$150,000 a year, and he quantity of material used will be about 11,000 bales. On this account a suggestion is embodied in the report to increase the jute revolving fund to \$100,000 a year. Affairs at the Folsom prison are reported to be in a good condition, many improve-ments having been made in the prison. Another suggestion made to the Governor is that a reform school be established where youthful criminals may be placed and thereby kept apart from those who are old in crime and steeped in vice. The Board further asked that the Executive investigate the matter of assisting in som way discharged convicts who are indigents.

No action was taken on the jute contract as the Governor had not yet approved the The usual bills were audited, after which the Board adjourned, to meet at San Quentin on November 12th, at 9 A. M.

Lastly, the necessity of a State institution

for the care of insane criminals was sug

The Harlan Case.

On Saturday, at Woodland, the selecting of a jury in the Harlan case was resumed in the Superior Court, and an additiona juror was obtained. The five days' work in selecting a jury has resulted very satisfac torily, six jurors being sworn in to try the case. The remaining six will probably be secured before many days. The six accepted are Henry Perry, J. B. Hamilton, E. K. Baldwin, Pat Quinn, J. Z. Faulkner and paper prints a story in which it connects K. Baldwin, Pat Quinn, J. Z. Faulkner and the departure of Jay Gould for Europa Mr. Ryman. At the close of the examinadeparture of Jay Gould for Europe tion of juror George B. Eustis, counsel for with the approaching execution of the Chicago Anarchists. The story says the Anarchist leaders fixed upon Gould as the man who by the bold and liberal use of his company pages and liberal use of h his enormous money power could stay the hand of justice and prevent what they look upon as the slaughter of martyrs. Absurd as this notion is, they have not hesitated to had fainted in his chair. There was muc excitement, and the Court-room was for the moment a scene of confusion. A shor recess was taken, and the juror soon re covered. He remained very pale for the rest of the day, however, and when questioned, stated that when the implication was made against him he fainted from anger and indignation.

It is right and proper. It would be a sad commentary, indeed, if we were forced to believe that so soon as life passes away there was no hope at all. It is not true. The Catholic Church teaches that the opposite is true. The bonds of love that are so strong in us pray for the dead. They are continued in the next. Let us pray for the dead. They are continually crying out to us like the cripple at the pool of Bethesda, who cried out to the Saviour, "I have no man, when the water is troubled to put me into the real." troubled, to put me into the pool." Those poor souls are crying out to you, "I have no man to dip me in the pool when the angel disturbs the waters." You can hear their terrible anguish as they exclaim: "Oh! you my friends. Ayer's Cherry Pectoral is a highly concentrated and powerful medicine It is an anodyne expectorant, and, if promptly taken, in cases of Coughs, Throat or Lung troubles, soothes and heals the irritated tissues, and quickly allays all tendency to Consumption. Six years ago, I contracted a severe Six years ago, I contracted a severe Cold, which settled on my Langs, and soon developed all the alarming symptoms of Consumption. I had a Cough, Night Sweats, Bleeding Lungs, Pain in my Chest and Sides, and was so completely prostrated, as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles,

I have used Ayer's Cherry Pectoral in my family, for Colds and Coughs, with infallible success, and should not dare to be without this medicine through the winter months.—Russel Bodine, Hughesville, Lycoming Co., Pa.
